This second event will focus on the experience of implementing a health & wellbeing strategy. We have two fantastic guest speakers who will share their stories in different sectors in implementing changes in health & wellbeing.

Ian Seddon, Senior Facilities Manager at Manchester Metropolitan University, will talk about the successful Wellbeing Project implemented in his department of 300 staff, where he increased productivity and reduced costs by £600k.

Vicky Manghan, HR Manager at Calsonic Kansei, will talk about the drivers and intention behind implementing a health and wellbeing strategy in the manufacturing work place.

Ward Hadaway, Newcastle Premier Health and Wellbeing Works are working in partnership to run these events with the aim of helping businesses in the North East to understand the importance of health & wellbeing in the workplace as a means of improving the overall health of the population of the North East and to help stimulate ideas for increasing productivity of the North East economy through meaningful change. Each of the three partner businesses will also speak at this event to provide their views on how to achieve real change in health & wellbeing in the workplace, looking at it from three different perspectives.
